ABOUT US

Atlas International is a global leader in the manufacturing of snack food production lines and packaging machines, with a legacy of over 50 years of excellence. Specializing in natural potato chips production lines, corn chips extrusion lines, pellet chips production lines, and fully automated industrial packaging solutions, we serve clients across the Middle East, Africa, Europe, and the Americas. Our expertise in engineering, automation, and custom-built production solutions makes us the preferred partner for investors and manufacturers worldwide.

Our commitment to quality, innovation, and customer success has earned us international recognition, certifications, and multiple patents.

At Atlas, we engineer turnkey production solutions that are energy-efficient, high-capacity, and designed to maximize productivity while ensuring superior product quality.

PACKING MACHINE SYSTEMS

FILLING & PACKAGING MACHINES

A large industrial facility with multiple rows of complex filling and packaging machinery. The machines are constructed from stainless steel and feature yellow safety enclosures. They are arranged in a long line, receding into the background. The floor is a smooth, light-colored concrete. The ceiling is high with visible structural beams and lighting fixtures. The overall atmosphere is industrial and clean.

Volumetric & Weighing Packaging for Nuts, Snacks & Granular Products

MODEL | PMC80

WEIGHT

VOLUMETRIC

FILLING TYPE

Volumetric, Weighing

PRODUCTS

Nuts, Legumes, Sugar, Salt, Chips, Tea
